Yale-New Haven Hospital Medical Intensive Care Unit

Patient Population

The MICU at Yale-New Haven Hospital is a 14-bed critical care environment whose patient population represents a wide variety of medical problems and complications.

Staff/Practice

Our unit is enhanced by research involvement – including the development of protocols – and by our dedication to continuing education. We attract strong, energetic nurses who function as both learners and teachers in our fast-paced environment. We practice the art of primary nursing and pride ourselves on our knowledge base and our ability to act collaboratively as patient advocates. We value teamwork, a strong work ethic, quality patient/family care and a good sense of humor.
